

## ECOBAIT

Reg. No. L10845 Act No. 36 of 1947

ECO-FRIENDLY SNAIL AND SLUG BAIT

A BAIT FORMULATION FOR THE CONTROL OF SNAILS AND SLUGS.

ACTIVE INGREDIENT: Iron (Fe) 9.75 g/kg

### PRECAUTIONS:

- Do not swallow EcoBait.
- Keep out of reach of children, uninformed persons, and animals.
- Store away from food and feeds.
- Do not eat, drink, or smoke whilst applying.
- Wash hands with soap and water after handling this product.
- Prevent contamination of food, feed, drinking water, and eating utensils.
- For good occupational hygiene, wear gloves during mixing/loading activities and when applying by hand.
- May cause eye irritation. Avoid contact with eyes.
- Empty container completely before disposal.
- Destroy the empty container. Do not re-use the container for any other purpose.

DIRECTIONS FOR USE: Use as directed.

### Application:

Scatter the pellets on the soil, around or close to the plants you would like to protect against snails.

Scatter evenly and do not heap the pellets.

Apply onto moist soil, with no standing water.

Re-application is required every three weeks or as the bait is consumed by snails or slugs.

More regular application will be required in areas that get heavily watered or after experiencing long periods of rain.

Snails and slugs are most active during the night or early mornings. Apply EcoBait pellets in the evening or late afternoon for best results.

1 kg of ECOBAIT pellets will cover 1000 m<sup>2</sup>.

**RESIDUES:**

Because the active ingredient is a compound found naturally in the soil, and the percentage of active ingredient applied in these crops is far less than the limited daily dietary intake. The Department of Health indicated that is no need for an MRL.

If you are looking for an eco-friendly insecticide to control snails and slugs - look no further! Although this remedy has been extensively tested under a large variety of conditions, the registration holder does not warrant that it will be efficacious under all conditions because the action and effect thereof may be affected by factors such as abnormal climatic and storage conditions; quality of dilution water, compatibility with other substances not indicated on the label and the occurrence of resistance of the pest against the remedy concerned, as well as by the method, time and accuracy of the application. The registration holder furthermore does not accept responsibility for damage to crops, vegetation, the environment, or harm to man or animal or for lack of performance of the remedy concerned due to failure of the user to follow the label instructions or to the occurrence of conditions which could not have been foreseen in terms of the registration. Consult the supplier in the event of any uncertainty.
