

DIRECTIONS FOR USE:

Multi-Booster is a watersoluble fertilizer and is suitable for application via an irrigation system in the home garden. Multi-Booster is further ideal to be used as a foliar feed to be sprayed on foliage of plants at a rate of 150 gram / 5 litres of water.

GEBRUIKSAANWYSINGS:

Multi-Booster is 'n wateroplosbare kunsmis wat uiters geskik is om deur 'n besproeiingsstelsel toegedien te word in die huistuin. Multi-Booster is verder ideal om as 'n blaarvoeding op blare van plante toegedien te word teen 150 gram / 5 liter water.

Roses: 25 gram / big plant or 12.5 gram / small plant; in early spring; and repeat every 4 weeks

Flowers, Shrubs and Evergreen Plants: 30 gram / m² evenly on flowers and in drip area of shrubs; in early spring; repeat every 4 weeks

Lawns & Home Garden Vegetables: 30 gram / m²; in early spring; repeat every 4 weeks

Do not exceed the recommended dosage rate.
Water well after each application.

Fruit trees: 250 gram / year of the age of the tree to a max 2 kg in drip area of tree, ⅓ at budburst in early spring and the other ⅔ after removing the fruit.
