

BIO SOIL improves the soil structure and microbial activity, promoting a healthy environment with high crop performance by:

- Improving photosynthesis and the absorption of nutrients from the soil for the maximum development of the crop.
- Neutralising toxic soil elements, such as heavy metals, prevents the plant from absorbing them and protects the available nutrients in the soil.
- Increasing the aeration of excessively compacted soils.
- Allowing the soil to remain humid and have available water for longer.

As a result of the product application, it boosts the final productivity of all types of crops.

Shake well before use.

To be applied by competent persons only.

Read the directions for use, carefully.

Consult your advisor for specific crop and site recommendations.

Do not exceed the indicated dosage.

Signal word: **Warning**

Warnings: Harmful if swallowed.

Precautions: If swallowed: Call a poison center or doctor/physician if you feel unwell. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Compatibility with other products: Do not mix with acid products. Test the compatibility of all mixtures before use.

Specific directions for storage and handling: Store in a cool, dry, well-ventilated area, out of direct sunlight. If spillage should occur during handling, transport or storage, wash the affected area with plenty of water.

Organic Agriculture: Confirmation of Compatibility for the use in Organic Agriculture, issued by BCS ÖKO GARANTIE according to the requirements of: NOP 7 CRF Part. 205.601 (j) (3).

BIO SOIL

**CONCENTRATE OF ORGANIC ACIDS
EXTRACTED FROM COMPOSTED
VEGETAL MATERIAL**

**UNLOCK NUTRIENTS, IMPROVE SOIL STRUCTURE
AND WATER RETENTION CAPACITY**

Fertigation Dosage:
50 ml / 10 l water

Instructions for use:
Apply by fertigation or use as an
adjuvant in foliar sprays.

**Recommended dosage when
used as an adjuvant in foliar
sprays:**
5 ml / 1 l water for all
applications.

**COMPOSITION /
GUARANTEED PURENESS:**

	Composition:	
(K) Potassium	40.0 g/kg	(45.2 g/t)
Total Humic Extract	150.0 g/kg	
Humic acid	70.0 g/kg	(79.1 g/t)
Fulvic acid	80.0 g/kg	(90.4 g/t)
