

PRUNING SEAL (KEMSEEL)

Hazard statements: • Harmful if swallowed. • Causes skin irritation. • Suspected of causing genetic defects (exposure route). • Suspected of causing cancer (exposure route). • Toxic to aquatic life.

Precautionary statements: • Do not handle until all safety precautions have been read and understood. • Wash hands thoroughly after handling. • Do not eat, drink or smoke while using this product. • Avoid release to the environment. • Wear protective gloves/protective clothing/eye protection/face protection. • If swallowed: Call a poison center or doctor/physician if you feel unwell. • If exposed or concerned: get medical advice/attention. Rinse mouth.

WARNING

A protective compound for the sealing of pruning wounds in all crops, ornamentals and roses.

Directions for use: Apply to fresh wounds directly after pruning or cutting by means of a brush or pad. After application the product must have sufficient time to dry thoroughly before rain falls otherwise it will wash off. It is good practice not to prune in rain weather. Brushes and pads should be thoroughly washed in cold water after use.
