

ROSE PROTECTOR

L8114 – Act 36 of 1947 / N-AR 0969

IRAC and FRAC INSECTICIDE and FUNGICIDE GROUP CODES 3, C, H

Active Ingredients: Bifenthrin (pyrethroid) 10 g / ℓ
Bupirimate (pyrimidine) 75 g / ℓ
Propiconazole (triazole) 25 g / ℓ

Registration Holder: MAKHRO HOME AND GARDEN (PTY) LTD (2014/283523/07)

Office No: 021 981 4011

21 Viben Street, Brackenfell

Technical advise: 082 562 5330

Medical Emergency: 0861 555 777

WARNINGS:

- Flammable liquid and vapour.
- Harmful if inhaled.
- Causes skin irritation.
- Causes serious eye irritation.
- May cause genetic defects.
- May cause cancer.
- May damage fertility or the unborn child.
- Causes damage to organs through prolonged or repeated exposure.
- May be fatal if swallowed and enters airways.
- Do not use on edible crops.
- Harmful to bees.
- Store in a cool, dry place away from food or feed.
- Keep out of reach of children, uninformed persons and animals.

Although this remedy has been extensively tested under a large variety of conditions the registration holder does not warrant that it will be efficacious under all conditions because the action and effect thereof may be affected by factors such as abnormal climatic and storage conditions, quality of dilution water, compatibility with other substances not indicated on the label and the occurrence of resistance of the pest against the remedy concerned as well as by the method, time and accuracy of application. The registration holder furthermore does not accept responsibility for damage to crops, vegetation, the environment or harm to man or animal of for lack of performance of the remedy concerned due to failure of the user to follow the label instructions or to the occurrence of conditions which could not have been foreseen in terms of the registration. Consult the supplier in the event of any uncertainty.

PRECAUTIONS:

- Obtain, read and follow all safety instructions before reuse.
- Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
- Ground or bond container and receiving equipment and take action to prevent static discharge.
- Use explosion-proof electrical/ventilation/lighting/other equipment.
- Use only non-sparking tools.
- Take precautionary measures against static discharge.
- In case of fire: Use suitable materials to extinguish.
- Do not breathe dust/fumes/gas/mist/vapours/spray.
- Use only outdoors or in a well-ventilated area.
- Avoid release to the environment.
- Wash hands and face thoroughly after handling. Do not touch eyes.
- Wear protective gloves, protective clothing, eye protection and face protection.
- Use personal protective equipment as required.
- If exposed or concerned, get medical advice.
- Get medical help if you feel unwell.
- IF INHALED: Remove person to fresh air and keep comfortable for breathing. Get emergency medical help.
- IF ON SKIN: Wash with plenty of water.
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical help.

RESISTANCE WARNING:

MAKHRO ROSE PROTECTOR is a group code 3 insecticide and group codes C and H fungicide. Any population of a specific insect or fungus may contain individuals which may have a natural resistance to **MAKHRO ROSE PROTECTOR** or any other group code 3 insecticides or group codes C and H fungicides. If these insecticides and fungicides are used repeatedly and exclusively resistant individuals eventually dominate the insect and fungus populations. These resistant insects and fungi will probably not be controlled by **MAKHRO ROSE PROTECTOR** or any other group code 3 insecticide or group code C and H fungicides. To delay the development of resistance, the following can be done:

- Avoid the exclusive continuous use of insecticides and fungicides of the same group codes. Alternate with other insecticides and fungicides from different group codes.
- Integrate with other control methods (chemical, cultural, biological) in control programmes

DIRECTIONS FOR USE: Use only as directed.

MIXING AND APPLICATION:

Shake the container well before use. Use 4 mℓ **MAKHRO ROSE PROTECTOR** for each liter of water. Half fill the sprayer with water, add the required volume of **MAKHRO ROSE PROTECTOR** and shake well. Fill the sprayer with the required volume of water and shake well.

MAKHRO ROSE PROTECTOR can be applied by means of any suitable hand held or knapsack sprayer. Ensure thorough wetting of all plant parts to the point of run off. Repeat application every 7 – 10 days as long as the insects or diseases are noticed. If insects and diseases are already present at time of application repeat sprays at least 3 times with 7 day intervals.

CROP	INSECT / DISEASE	DOSAGE RATE
ROSES and ORNAMENTALS	Aphids Red spider mite Black spot Powdery mildew Rust	4 mℓ MAKHRO ROSE PROTECTOR per 1 liter water (40 mℓ MAKHRO ROSE PROTECTOR per 10 ℓ water)

ROSE PROTECTOR

L8114 – Wet 36 van 1947 / N-AR 0969

IRAC en FRAC INSEKDODER en SWAMDODERGROEPKODES 3, C, H

Aktiewe Bestanddele: Bifentrien (piretroïed) 10 g / ℓ
Bupirimaat (pirimidien) 75 g / ℓ
Propikonasool (triasool) 25 g / ℓ

Registrasiehouer: MAKHRO HOME AND GARDEN (PTY) LTD (2014/283523/07)

Kantoor Nr: 021 981 4011

Vïbenstraat 21, Brackenfell

Tegniese advies: 082 562 5330

Mediese nood: 0861 555 777

WARNINGS:

- Vlambare vloeistof en damp.
- Skadelik indien ingeasem.
- Veroorsaak velirritasie.
- Veroorsaak ernstige oogirritasie.
- Kan genetiese defekte veroorsaak.
- Kan kanker veroorsaak.
- Kan vrugbaarheid of die ongebore kind beskadig.

- Veroorsaak skade aan organe deur langdurige of herhaalde blootstelling.
- Kan dodelik wees as dit ingesluk word en in lugweë ingaan.
- Moet nie op eetbare gewasse gebruik nie.
- Skadelik vir bye.
- Berg in 'n koel, droë plek weg van voedsel of voer.
- Hou buite bereik van kinders, oningeligte persone en diere.

Alhoewel hierdie middel omvattend onder 'n groot verskeidenheid toestande getoets is, waarborg die registrasiehouer nie dat dit onder alle toestande doeltreffend sal wees nie aangesien die werking en effek daarvan beïnvloed kan word deur faktore soos abnormale grond, klimaats- en bergingstoestande, kwaliteit van verdunningswater, verenigbaarheid met ander stowwe wat nie op die etiket aangedui is nie en die voorkoms van weerstand van die siekte teen die betrokke middel sowel as die metode, tyd en akkuraatheid van toediening. Verder aanvaar die registrasiehouer nie verantwoordelikheid vir skade aan gewasse, plantegroei, die omgewing of vir nadelige effek op mens of dier of vir 'n gebrek aan prestasie van die betrokke middel as gevolg van die versuim van die gebruiker om etiketaanwysings na te kom of as gevolg van die ontstaan van toestande wat nie kragtens die registrasie voorsien kon word nie. Raadpleeg die verskaffer in geval van enige onsekerheid.

VOORSORGMAAATREËLS:

- Verkyr, lees en volg alle veiligheidsinstruksies voor hergebruik.
- Hou weg van hitte, warm oppervlakte, vonke, oop vlamme en ander ontstekingsbronne. Geen rook nie.
- Grond of bind houer en ontvangstoerusting en neem aksie om statiese ontlading te voorkom.
- Gebruik ontploffingsvaste elektriese/ventilasie/beligtig/ander toerusting.
- Gebruik slegs gereedskap wat nie vonk nie.
- Tref voorsorgmaatreëls teen statiese ontlading.
- In geval van brand: Gebruik geskikte materiaal om te blus.
- Moenie stof/rook/gas/mis/dampe/spuitstof inasem nie.
- Gebruik slegs buite of in 'n goed geventileerde area.
- Vermoë vrylating na die omgewing.
- Was hande en gesig deeglik na hantering. Moenie aan oë raak nie.
- Dra beskermende handskoene, beskermende klere, oogbeskerming en gesigbeskerming.
- Gebruik persoonlike beskermende toerusting soos benodig.
- Indien blootgestel of bekommerd, kry mediese advies.
- Kry mediese hulp as jy onwel voel.
- INDIEN INGESAEM: Verwyder persoon na vars lug en hou gemaklik om asem te haal. Kry nood mediese hulp.
- INDIEN OP DIE VEL: Was met baie water.
- INDIEN IN OË: Spoel versigtig uit met water vir 'n paar minute. Verwyder kontaklense, indien teenwoordig en maklik om te doen. Gaan voort met spoel. Indien oogirritasie voortduur: Kry mediese hulp.

WEERSTANDSWAARSKUWING:MAKHRO ROSE PROTECTOR is 'n groepkode 3 insekdoder en groepkodes C en H swamdoder. Enige populasie van 'n spesifieke insek of swam mag individue insluit wat 'n natuurlike weerstand teen **MAKHRO ROSE PROTECTOR** of enige ander groepkode 3 insekdoder en groepkodes C en H swamdoders het. Indien hierdie insek- en swamdoders herhaaldelik en eksklusief aangewend word kan weerstandbiedende individue uiteindelik hierdie insek- en swamdoderpopulasies oorheers. Hierdie weerstandbiedende insekte en swamme sal waarskynlik nie deur **MAKHRO ROSE PROTECTOR** of enige ander groepkode 3 insekdoders en groepkodes C en H swamdoders beheer word nie. Om die voorkoms van weerstand te vertrap kan die volgende gedoen word:

- Vermoë die eksklusiewe en herhaaldelike gebruik van insek en swamdoders met dieselfde groepkodes. Wissel af met ander insek en swamdoders van ander groepkodes.
- Integreer ander beheermaatreëls (chemise, verbouing, biologies) in beheerprogramme.

GEBRUIKSAANWYSINGS: Gebruik slegs soos aangedui.

VERMENING EN TOEDIENING: Skud die houer goed voor gebruik. Gebruik 4 ml **MAKHRO ROSE PROTECTOR** vir elke liter water. Vermeng deur eers die helfte van die benodigde watervolume in die spuittenk te voeg. Voeg daarna die verlangde volume **MAKHRO ROSE PROTECTOR** in die spuit. Skud goed en vul die spuit met water tot by die verlangde volume. Skud goed.

MAKHRO ROSE PROTECTOR kan met enige geskikte handspuit of rugsaspuit toegedien word. Verseker dat alle plantdele deeglik benat word tot voor die punt van afdrup. Herhaal die toediening elke 7 – 10 dae solank insekte en siekte opgemerk word. Indien insekte en siektes alreeds teenwoordig is tydens toediening moet ten minste drie bespuitings 7 dae uitmekaar gedoen word.
